Mimi Sheraton : The Seducer's Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised The Seducer's Cookbook:

3 of 3 people found the following review helpful. Exceptional cookbook: the prose as good as the foodBy readerIn this wonderful cookbook Mimi Sheraton cautioned that if you have been feeding your sweetheart gourmet home cooked meals and making little progress, to consider:1. There may be someone else too poor to feed her. She could be eating at your house and sleeping at his, and if you think that the butter is going faster than it should, or that she seems to be consuming a lot of food for such a little lady, she may be smuggling it out to him so check carefully when she leaves.2. He may already be married to a girl who is a miserable cook, so he's just eating around. If he's difficult about seeing you on weekends, always seems to call from a phone booth, and leaves just after dessert, you'd better do a little asking around as see what you can find out. (Read the above on smuggling.)3. She may be holding out for marriage; he may be holding out for bed.4. Your petite amie may be the victim of a hormone imbalance and simply failed to tell you about it.5. He or she may also have read this book and, being wise to the game, decided to make the most of your culinary efforts without a thought of reacting according to plan. This sort of person is known as a gastronomic opportunist and should be made to eat frozen TV dinners for the rest of his or her life.6. He or she may be playing hard to get just to add incentive to the chase. "The fruit that can fall without shaking indeed is too mellow for me" said Lady Mary Worthy Montagu, and you might consider her viewpoint and take up the challenge with renewed ambition.Sheraton even discusses where to meet the person that you will then cook for: museums, the library, department stores, stockholder's meetings and even a writing class if you're not afraid to turn up in a first novel.All in all, a wonderful book in every sense.0 of 0 people found the following review helpful. funBy OznayimDated of

course, but a fun read, and some good menus and recipes. A perfect gift for a young single. 1 of 1 people found the following review helpful. great book By Charles Kennedy This is one of my favorite books. If you need a lift on a gray day let this book fall open to any page and you will be smiling in minutes. I wish I lived next door to Mimi. What a woman.
