Southern Appalachian Studies):

Appalachian literature is filled with silent or non-discursive characters. The reasons for their wordlessness vary. Some are mute or pretend to be, some choose not to speak or are silenced by grief, trauma or fear. Others mutter monosyllables, stutter, grunt and point, speak in tongues or idiosyncratic language. They capture the reader's attention by what they don't say.

"In this extensive collection of essays, Collins delves into the complex causes of, and reasons for, silent characters from an already silenced region. Her insightful analysis of these voiceless characters in Appalachian literature unveils important metaphors for power and powerlessness in literature and in Appalachian identity as a whole." --Amanda Rachelle Warren, author of *Ritual no.3: For the Exorcism of Ghosts*"*The Silent Appalachians* gives eloquent voice to a diverse set of non-verbal characters, at the same time bringing the reader to a deeper understanding of the authorial uses of the sounds of silence. Collins' scholarly study focuses like a high beam flashlight on a small subset of characters, but the peripheral glow of that spotlight is unexpectedly far-reaching and illuminating." --Vicki Lane, author of *The Day of Small Things* and the *Elizabeth Goodweather Appalachian Mysteries*About the AuthorVicki Sigmon Collins teaches English at the University of South Carolina Aiken.
