Captivating Star Trek for every generationBy Minion mammaMy husband can't put this down! What a hit! His only complaint is that it is too heavy for bedtime reading. He would get a concussion if he fell asleep and dropped it on his head!Great in depth information in an easy to follow layout. Everything is in short clips that make you want to read "just one more."The kids love to see and read about their favorite characters and learn more about each back story.2 of 2 people found the following review helpful. Star Trek EncylopediaBy Scott M. KruseThis is very detailed and well written. Useful indices and references at the end. Includes overviews of clothing, uniforms, ranks, ships and the like. Bibliographic information on characters is very useful and informative. Every time I pick it up I learn something new (or something I

have always wondered about, but didn't quite know where to look). There should be a sub section on Trek movies. Some of the writing is a bit concise, but then this is a massive undertaking.
