book meant for those who want to see how the original script read. I am one of those people. I personally believe the TWILIGHT ZONE is one of the most imaginative shows ever developed for Television, and any time I can get the scripts in written form will be a treasure. If you are a fan of the Twilight Zone, you will enjoy this treasure this book has to offer. Since I am an avid fan, this book comes as a wonderful asset to my collection. I would like to see EVERY TZ story written for fans to read. As for now, we have these treasures to enjoy along with some written by Rod Serling himself and others. I hope to see more books like this one that are written for avid viewers of the original Twilight Zone like myself. 1 of 1 people found the following review helpful. Unique Super collector's Book By USC Trojan Girl This is a great collector's item for fans of both Twilight Zone and Earl Hamner. The compilation gives us a good idea of how 'things' were done. The paperback is convenient and the price is right. As a side, Mr. Hamner is a wonderful person. I sent him this book and a couple of photos to personalize for me and he returned them with sweet inscriptions. 0 of 0 people found the following review helpful. twilight light zone scripts By Ms. Cheryl C. Riley I enjoyed this book very much. It had been a long time since I have seen twilight zone and this book brought back all the stories I had seen on TV. So much that I wish I could see them acted out again, in the old way. I enjoy Earl Hamner's writing and his story telling abilities. I would recommend this book to anyone who likes the kirky side of life.

The Twilight Zone has evolved from a groundbreaking speculative television series into a cultural phenomenon. The recently revived series on FOX averaged 4.6 million viewers on its first episode. Indeed, the title itself conjures up thoughts of fantastic stories that bridge several forms of fiction to create a unique genre of morality tales with a touch of irony, unlimited by the boundaries of conventional fiction. Broadcast from 1959 to 1964, the show has run ever since in syndication, making it one of the longest running television shows of all time, creating a new genre of shows similar to the X-Files and Twin Peaks. Five writers created the core of the show, and together these men fashioned the bulk of the 156 original episodes: Rod Serling, Richard Matheson, Charles Beaumont, George Clayton Johnson, and Earl Hamner. All went on to other projects in film, television, theater, and print, but their involvement in the Twilight Zone is well known to fans of the series. The Twilight Zone Scripts of Earl Hamner contains reprints of the eight episodes written by Hamner, along with Albarella's commentary on each story: The Hunt, " " "A Piano in the House, " " "Jess-Belle, " " "Ring-a-Ding Girl, " " "You Drive, " " "Black Leather Jackets, " " "Stopover in a Quiet Town, " " and " "The Bewitchin' Pool." " Also included is a " "lost" " Twilight Zone short story by Mr. Hamner and an interview with Albarella that covers the background details of how Hamner became involved in the series.
