**Deborah Lipp : The Ultimate James Bond Fan Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ultimate James Bond Fan Book:

0 of 0 people found the following review helpful. Biased, but fun and informative.By SheSpyI bought this because I read an article by the author online about how she came to love the Bond franchise. Being a female Bond fan myself I was very interested in her book.I guess I was wanting more of an informative review of the Bond actors, films, themes, and gadgets, and don't get me wrong, the author really knows her stuff here and covers pretty much everything there is

to know. However a lot of the book entails her own opinions on certain films and theme songs, and that's where it gets weird. Bond fans seem to be extremely varied as to which films and actors they prefer, so an opinion-heavy text seems to be an odd choice for a book that's supposed to reach all fans. I do still recommend this book because she brings up some very good points and really knows her Bond mythos as well as the history of the production behind the franchise. Just keep in mind that she'll probably condemn one of your favorite films or songs. All in all, a fantastic wealth of knowledge and Bond-theory if you can get past her opinions if/when they clash with your own. 0 of 0 people found the following review helpful. Got me excited about Bond movies again! By Dave R  
Opinions are like... noses... everybody has one. But original, insightful and entertaining opinions are rare. Yes, Ms. Lipps book contains a zillion lists, but the discussions of each Bond film are what make it worth the price of admission. As another reviewer suggested, this book is like having a discussion with a friend about a topic you both love. Of course the book is opinionated, but that's what makes it interesting and separates it from a boring coffee table book. Anyone who can get me to go back and watch truly bad films like Live and Let Die or (pick another Roger Moore title) because of insights into particular scenes has done their job. I'm excited about Bond movies again... what more can you ask for six bucks? 0 of 0 people found the following review helpful. FOR ANY FANS OF JAMES BOND By Michael W. Wiest  
Why do I love James Bond? What is my fascination with all things Bond? I had not really considered the "WHY" of my 50 + year loyalty of Ian Fleming, EON productions, Sean Connery and now Daniel Craig. AHH those cars, Walther guns, Gadgets, beautiful women, tuxedos, gambling, all the elements of a James Bond book or movie. What makes a fan a fan? This book may hold the answers, it did for me. It is well written, and holds a lot of interesting facts, and why those facts are relevant to Bond fans. I own a lot of books on James Bond, but this one is the most insightful of them all. Highly recommended!!

The Ultimate James Bond Fan Book is a never-before compiled compendium of lists, facts, anecdotes, trivia, commentary, and much, much more, about the most successful franchise in movie history. Filled with minutiae culled from the far-reaches of the planet, The Ultimate James Bond Fan Book is your one-stop shop for all things Bond, including a detailed, encyclopedic listing of every Bond movie ever made, replete with the actors, the guns, the gadgets, the girls, the cars, and everything in-between. A must for even the casual Bond fan.
