I've frequented Hollywood and some of the other star studded places glamorized all over the movie star scene. I was even lucky enough to attend a party at a famous movie

stars house. Donald hit the nail on the head with this book. It describes the rich and the famous of Hollywood to a tee. I found it to be a great read since I am an avid reader of Hollywood and celebrity gossip columns. I think some people are just a little curious about how their lives tick. I think he covered just about every aspect of the Hollywood elite. In my opinion, it was a well written observance of life in the shoes of the rich, famous, infamous, and those striving to be as such. I wouldn't expect a grade A review from someone who lives somewhere other than Los Angeles or CA for that matter. 9 of 14 people found the following review helpful. How good is the book? I couldn't even finish it. By Rick Spell While on vacation, I picked up this book looking forward to one of my favorite subjects. Frankly, I was so disappointed I didn't finish the book and went back to my others. For that reason, don't look at this review as conclusive. But I love to read and this is one of the few books I ever started and didn't finish so be forewarned.

Los Angeles. As luxurious as it is decadent, it is host to lush and extravagant galas, aglitter with the rich and famous, overrun by exotic cars, rife with crazed body builders, peopled by agents scoffing at nine-figure deals, and haunted by greed, ambition, and despair. Devastated by earthquakes, it is even more gloriously rebuilt. But beneath it all echo the cries of infants murdered by drug addicted parents, husbands who kill themselves in hotel rooms, and marriages broken over bank accounts. From the best to the worst, Donald Rawley offers it all up in a sprawling book that captivates the reader with its devastating honesty.
