It was far and away the best investment in my college career.2 of 3 people found the following review helpful. Good book good priceBy Alvena StanfieldIt arrived well

packaged and while I don't agree with many of the writers within this anthology of western movies, my cinematography instructor does. As far as purchasing, receiving and being the product ordered, all was excellent. 2 of 3 people found the following review helpful. Couldn't have asked for better. By imartine I'm taking an upper division course in western hero history and I needed this book for the class. It came in as described and with hardly any wear and tear. I recommend this seller and the book.

This lavishly-illustrated collection of writings on western movies covers close to a century of American cinematic achievement and includes almost a half-century of essays, commentary, and interviews. The history, mythology, and landscape of the western are skillfully explored.
