Anthony Petkovich : The X Factory: Inside the American Hardcore Film Industry before purchasing it in order to gage whether or not it would be worth my time, and all praised The X Factory: Inside the American Hardcore Film Industry:

5 of 6 people found the following review helpful. not the best book on adult filmsBy J. MclemoreI have read alot of books on the subject of adult films and this was not one of the best. Its not that its a bad book its just that anyone with web access can read interviews in the same vein with all the porn stars they want. A good Hustler interviewer asks the same questions (i.e. whats your fave position etc). Its one saving grace is the interviews with directors and behind the scenes personnel. If your looking for a good book on porn check out The Other Hollywood or Skinflicks both are great

histories of porn films.

Since 1972 and the release of *Deep Throat*, the business of making commercial hardcore feature films has grown dramatically. Thousands of films are produced every year. Yet for the most part the industry remains a mysterious commodity, with the people behind it still seen as unscrupulous, vaguely threatening figures. Now the record is put straight with *The X Factory*, an eye-opening trip into adult feature films courtesy of interviews, on-the-set reports and a visit to the World's Biggest Gang Bang 2. "The best peep-show coverage of the porn-video business." -Screw
