My Dad has a great love (knowledge) of the classic B-westerns and was not disappointed! Everything you ever wanted to know about cowboy sidekicks is in this volume from rare photos, insightful commentary to full lists of movies (there were even a couple of sidekicks Dad had missed). This is the kind of book you can keep coming back to not only for the entertainment value of these great character actors, but as a comprehensive reference guide. 0 of 0 people found the following review helpful. great cowboy sidekicks David Rothel. By Mr. William Lester I just loved to read about all those familiar faces and tried to put a name to them. This book helped me do just that, and reading it was so interesting because some were actually interviewed when they were still alive. Thanks. W. Lester. 0 of 0 people found the following review helpful. Watched them when I was young. By Ann A. Enjoyed the book.
