Jeff Kurtti, Jody Revenson : Treasure Planet: A Voyage of Discovery before purchasing it in order to gage whether or not it would be worth my time, and all praised Treasure Planet: A Voyage of Discovery:

1 of 1 people found the following review helpful. Expands on general story but not much elseBy ErikaThey expanded A LOT on the general canon of the universe (goes into detail how the universe is the way it is in the movie) but it is extremely lacking in expanding on character biographies and pasts. It's also disappointing that this book is so short; for a project that Disney had in development for many years, they could have greatly expanded on this book; I know they have they information!In closing, If you are a die hard fan of Treasure Planet, this book is a must and is a holy grail in the fandom. The pictures they do have are gorgeous and they do explain Jim's mindset pretty well (but it's not something a die hard fan wouldn't already know) and it's nice to have a piece of Treasure Planet.If you are a general fan, of animation or Disney then steer clear! Animation fans will find the lack of explanation on the blending of the 2d and 3d mediums disheartening and Disney fans tend to forget this movie exists so I doubt you'll care much for this.0 of 0 people found the following review helpful. Book is in excellent condition; even smells like new inkBy Robert McNuttBook is in excellent condition; even smells like new ink. Binding is still intact and no dog eared pages. Definitely a book I'll treasure.0 of 0 people found the following review helpful. Makings of GreatnessBy Isaac WinemanIt's something I've always wanted. Now I can read all the cool trivia about my favorite movie. It was in better condition than was expected. I don't think it was ever even opened! Thanks!

Go "behind the sails" on an intergalactic treasure hunt in this thrilling new animated space adventure by Walt Disney Pictures. A futuristic twist on one of the greatest adventure stories ever told, Treasure Planet follows Jim Hawkins's fantastic journey across a parallel universe aboard a glittering space galleon. Bug great dangers lie ahead when Jim discovers that his trusted mentor, the cyborg cook John Silver, is actually a scheming pirate with mutiny on his mind. Legends of pirate treasure and pirate terror, the lore of literary pirates, and a look at the loot of a thousand worlds are

all featured in this richly illustrated volume that will be treasured by buccaneers of all ages. Discover the film's evolution and the development of its characters, weaponry, and technology, as well as exploring the interesting histories of actual pirates who sailed the seven seas. Part techno-log, part field guide, this book is brimming with diagrams, gadgets, and gizmos, fun facts, and fascinating anecdotes.
