I have loved Van Johnson since I was 13 years old (I am now 48), and had the good fortune of having a cousin who was in theater work with him in a touring production of "Showboat" back in the mid 80's. I was 14 at the time, and such a huge fan and she didn't really know who he was so I was able to give her an idea of the movies he'd been in. She got his autograph for me, which I cherish to this day! This book is an amazing book from the standpoint that it's told through pictures which definitely speak for themselves to give the reader an idea of the life they had. I almost felt as if I were in their "play room" having a drink at the bar! Mrs. Evie Johnson did a wonderful job taking pictures and would have been a fabulous professional photographer! This was an amazing book,

and it was a positive book as well which speaks volumes about the author and her character. Thank you to the author for sharing your personal pictures and your recollections. :)9 of 9 people found the following review helpful.  
**BEAUTIFUL INFORMATIVE BOOK WITH GREAT PHOTOS!**By Schuyler V. JohnsonThis is truly a wonderful glimpse into Hollywood in its heyday. Even if I had no personal interest I would still love it. A beautiful and handsome book with great candid snaps and anecdotes.The first thing I do with a biography is check out the photos; the text is secondary. This book is almost all photos with informative captions.I hope you enjoy and please let me know any comments or thoughts! Cheers!1 of 3 people found the following review helpful. Had High HopesBy HollywoodI really wanted to love this book, but the photographs are so small and of poor quality.

A rare view of Hollywood's Golden Age as seen through the private family album of MGM's top box office draw in the 1940s, Van Johnson A must-have for fans of Hollywood's golden age of film, theater and television Candid images of some of the biggest stars off screen, and filled with anecdotes of life in Hollywood In 1947 and 1948, Van Johnson was MGM's top male box office draw. 'On screen he was the Pied Piper; Elizabeth Taylor's lover, he was a war pilot with Spencer Tracy,' writes his friend and decorator Carleton Varney in the introduction for Van Johnson's Hollywood: A Family Album.Along the way, his wife, Evie Wynn Johnson, an amateur shutterbug captured behind-the-scenes images of their friends, some of Hollywood's most famous stars, such as Gary Cooper, Judy Garland, and Humphrey Bogart on the road, on the set, around the pool, and at their Hollywood home. She put together these casual and candid images in a family album that has never been published before.Their daughter, Schuyler adds her memories to this unique document of Hollywood's Golden Age.
