Maybe the best guide out thereBy A ReaderThe Leonard Maltin guide and this one are my favorites, but Video Hound gets the edge due to its amazing indexes. The actor and director indexes are very useful but there are many others too. There are also many films in here that don't make it into Maltin.0 of 0 people found the following review helpful. The cross referencing is a great help. One note, this is the size of a telephone book (remember those),so find a good spot for it. It's worth the effort.

Containing the most extensive listing of movies available on video more than 23,000 in all and a multitude of cross-referencing within its 10 primary indexes, each new edition includes 1,000 new movies, expanded indexing, a fresh new introduction and more of the beloved categories.
