Scheiding I've been without a DVD and Video guide since Mick Martin and Marsha Porter stopped issuing their handy annual guide. VideoHound more than fills the bill and has more information than was available in Martin/Porter's guide. 1 of 1 people found the following review helpful. Love My "Dog Book." No film fan should be without it. By Brave New World The Essential Guide. Since the internet (and the now Awful IMDB website) has taken over info searching, this is still the Place To Go for cross - referencing. Favorite director? All here with every available film reviewed. Curious about a certain writer? Cinematographer? Actor? Genre? Sub-genre? Sub-sub-genre? It's all here. Looking through your TCM guide and trying to figure out which films to watch? Great reviews here with excellent

details to look for and accurate (in my humble opinion) ratings. Love these guides. I buy the "Dog Book," as I call it, every 6 or 7 years. My family and friends call me when they have a question and my answer is inevitably, "Let me get the Dog Book." The legion cross-referencing indexes in the back separate it from the great Leonard Maltin's guides. Love my Dog Book. This classic film freak can't get by without it. 1 of 1 people found the following review helpful. To my great surprise none of the titles I entered were listed. By Janni When this book arrived I immediately looked up some movie titles to see if they were included and if so what kind of rating they were given. To my great surprise none of the titles I entered were listed. None of the titles I entered were of obscure movies almost no one had heard of. I was and am very disappointed!!! I've found this situation to be true of all of the books of this type I've seen. I do not understand how and why many movies are not included. From the reviews I read of this book I expected much more.
