Thomas Austin : Watching the World: Screen documentary and audiences before purchasing it in order to gauge whether or not it would be worth my time, and all praised Watching the World: Screen documentary and audiences:

Screen documentary has experienced a marked rise in visibility and popularity in recent years. What are the reasons for the so-called 'boom' in documentaries at the cinema? How has television documentary met the challenge of new

formats? And how do audiences engage with documentaries on screen? Watching the world extends the reach of documentary studies by investigating recent instances of screen documentary and the uses made of them by audiences. The book focuses on the interfaces between textual mechanisms, promotional tactics, and audiences' viewing strategies. Key topics of inquiry are: film and televisual form, truth claims and issues of trust, the pleasures, politics and the ethics of documentary. Case studies include *Capturing the Friedmans*, *tre et Avoir*, *Paradise Lost*, *Touching the Void*, and wildlife documentaries on television. This compelling and accessible book will be of interest to both students and fans of documentary.
