**henry farrell : What Ever Happened to Baby Jane** before purchasing it in order to gage whether or not it would be worth my time, and all praised What Ever Happened to Baby Jane:

17 of 18 people found the following review helpful. A Must Read for Suspense LoversBy Ohio FarmerA real page Turner. It's a shame the movie overshadowed the novel. The film was great but the novel fills the reader with a sense of dread and despair; you can feel the hopelessness that Blanche is experiencing as she finds herself at the mercy of her sadistic sister, trapped inside Jane's world of madness.Farrell was truly a master of suspense writing and getting the reader into the characters' perspectives. It's a shame he didn't publish more horror novels but at least he gave us this classic.9 of 10 people found the following review helpful. I have always loved the movieBy A. G. ReedI have always loved the movie, so I decided to finally get around to reading the novel. It certainly raises the question about who and how we identify villains. It's amazing how Baby Jane can elicit so many feelings of anger and fear, as well as sympathy as the story unfolds and her reality becomes more and more clear. Truly a classic.0 of 0 people found the following review helpful. If you are a Bette/Joan fan of the movie, this book is a must read!By LOVECarnations!Incredible book, I saw the movie, heard of the book and just had to get it. The dedication that the movie had to the book was wonderful. Sure, there were some tiny changes (a dead rat instead of a dead bird) but nothing to complain about. I can easily see why the powers that be thought that Bette and Joan would be perfect in the roles created by Farrell.

Cover shows lots of wear. Very aged book but all pages are intact and clean. Ships very quickly and packaged

carefully!
