the kicks out of it and couldn't stop laughing from the minute I started reading it! I would definitely recommend!! 0 of 0 people found the following review helpful. The riddles in this book are fresh and funny. The illustrations made me happy. I'm not really a 'joke' person. I don't tell them and I generally give a courtesy laugh when people tell them to me. So take all of that into consideration when I say that when I read this book, every riddle made me laugh out loud and turn to the person next to me to show them so they would laugh. Every answer revealed from turning the page was a delightful surprise. The riddles in this book are fresh and funny. The illustrations made me happy. The entire experience reminded me of being a child and reading over and over again that riddle book by Dr. Seuss. I have ordered 5 copies of this book to give away this Christmas as all the little people in my life getting a copy will enjoy it...as will my 80-year-old dad. Whining Grapes is bound to be a classic! Enjoy and laugh. 0 of 0 people found the following review helpful. Love this children's book and can't wait for the next ...By Jason A. Whining Grapes is a collection of word-play riddles aimed at having fun with the different meanings words can have. Venture a guess before turning each page or simply sit back and watch as each riddle takes shape. Barney Connaughton is an attorney/mediator in San Diego, California. One day seemingly out of nowhere a steady stream of riddles started forming in his head. The riddles persisted and after finding great joy in trying them out on his own children it seemed only right to share them with others. Michele Connaughton is a Retinal Angiographer in Portland Oregon who many years ago told her little brother, Barney, that he was going to write a book and that she was going to provide the illustrations. This book is a manifestation of that childhood vision. In the spirit of imagination and creativity, a portion of any proceeds received from this book will go to support the mission of the Waldorf School of San Diego.

About the Author Barney Connaughton is an attorney/mediator in San Diego, California. He was happily living his life with his wife, three children, and two cats when seemingly out of nowhere a steady stream of riddles started forming in his head. He was not much of a riddle or joke teller, but there they were. They persisted and he started writing them down. They flowed steadily for about six months at the end of which he had a little over 500 riddles.
