DisappointedBy Ginger FolkerI was expecting this to be funnier than it actually was..I was hoping to use this as a coffee table book but am unable to do so because of the amount of cursing in it. I don't mind foul language to a certain extent but this to me was a bit ridiculous. I was disappointed cause its not something I can really leave out for others to read due to the level and amount of foul language used.0 of 0 people found the following review helpful. Oatmeal for all your meal-time needsBy D.S.B.I was a little saddened that so many of the comics in this book are also on The Oatmeal website but, hey! I'm all for supporting the genius and comedy of Matt Inman. There were a handful of comics that were for this book only, and I horde them like the greedy comic-lover that I am.The pages are really pretty and the comics really pop. It was much different than reading them

online.Plus I put this down as a coffee table book and it's a real conversation starter. It usually goes something like... "So, D... why SHOULD grizzly bears wear underpants?"I have yet to come up with an appropriate response, but I'm not half so clever as the guy who wrote this book. Which is why you should totally get it.0 of 0 people found the following review helpful.
