Abe B. Surde : Why People Suck before purchasing it in order to gage whether or not it would be worth my time, and all praised Why People Suck:

0 of 0 people found the following review helpful. The bestBy Christine ClaytonHilarious !!!!2 of 3 people found the following review helpful. quirky and fun. Perfect to kick back at the end of ...By Dr. BeatEntertaining, quirky and fun. Perfect to kick back at the end of the day with a chapter at random.4 of 5 people found the following review helpful. Read This If You Need To LOLBy CustomerThis book is a comical adventure into a wide variety of personality types, how one can understand them, potentially rectify their maladies, or at the very least, find humor in their predicament

(and our own, when we recognize ourselves). Abe Surde's life story (including magical connections to Carl Jung, the Chupacabra, and Greek goddess Athena) is fascinating and would certainly seem to qualify him to author such a book. Many hilarious scenarios are described for the reader's benefit such as a human-armadillo baby, bringing a barf bag as countermeasure when visiting your co-dependent couple friends, sending haters into space to benefit from harmonic planetary vibrations, jealousy caused by expired food, escorting a pollyanna back to reality by feeding them a nasty raw olive (perfect remedy from a devotee of Athena), and forcing a thief to act out the role of Robin Hood in a play. As a vegan, I personally enjoyed the section on The Worrier. Since becoming vegan, I do still worry about animals all the time (why I'm vegan), but I enjoy the suggestion that worriers would stop worrying if they gave up meat. Try it and see! Read this book if you are sick of self help books and just want to laugh, for crying out loud.

You've heard of Sigmund Freud. You've heard of Carl Jung. But have you heard of Abe Surde? Surde is a humorist and master mixologist who tackles, with a smile and a wink, one hundred commonly irritating and upsetting personality types seen in everyday life. From disconcerting creeps to loudmouth louts and worrisome weirdos, Surde shares with readers his channeled theories on the origins of bad behavior. His assemblage of wacky yet clever musings combined in a quasi-serious and silly way adds levity to a world gone mad. This nonsensical collection amuses while simultaneously serving kernels of truth that surprisingly hit the mark. Surde's divine insights will tickle your funny bone unexpectedly, the way a dramatic comedy can suddenly spark a fit of laughter, because you didn't see it coming. **WHY PEOPLE SUCK** is a great icebreaker for parties and a fun distraction for anyone disturbed by the actions of another. It also makes the perfect gift for that special someone. Note of warning for delicate readers: the book contains adult language, references to sex and drugs, but only minimally to rock and roll. Give the gift of laughter to a friend in need of humor! To see a short video clip, go to: <https://youtu.be/TE-x-fiPaPM>
