brings all the web together in one binder. Some of the subjects will be very new and others will be memories of past surfing. All in all, this book is worth having ... just to share with others the uniqueness and diversities of the internet. 1 of 2 people found the following review helpful. Hysterical Heartwarming By Mae Levitt You've got to read it. Pick it up for a picker upper, read a little, then put it aside for another picker upper another time. Funny and fun. 1 of 2 people found the following review helpful. LOL By Robyn Lee I thoroughly enjoyed this book. It depicted alot of the fun stuff online. I laughed so hard my stomach ached.

Should I open it or shouldn't I? That's the question. Will it have a virus attached, will it be something I really don't want to see or read? Is it someone I know? What if I open it and don't want to download the attached file? How am I going to answer it if it requires an answer? Not to worry, be creative or let them think you are. Pages upon pages of fun stuff right at your fingertips. Chock full of educational, informational and pure nonsensical stuff of absolutely no use. It will be the desk reference you'll use the most because it's fun and sometimes even factual. Did you know that the only 15 letter word that can be spelled without repeating a letter is uncopyrightable? . . . or that the world's termites outweigh the world's humans 10 to 1.
