Dani Katz : Yes, I Am before purchasing it in order to gage whether or not it would be worth my time, and all praised Yes, I Am:

1 of 1 people found the following review helpful. Surprisingly powerful and brilliant book!By seaharewhyStill basking in the happy afterglow of reading, inhaling, and devouring this book. I can't recommend it enough to anyone and everyone!This a delicious and delightful combination of playful affirmations, practical suggestions, gentle encouragement, and universal truths. Choc full of adorable hand-drawn figures and words, Dani Katz has an innate ability to pack a remarkable amount of life and depth into otherwise simple looking drawings. The illustrations masterfully drive her messages home and compliment the text with a nice sense of balance."Yes. I am." is a dynamic, clever, and damn cute. The underlying message is all about You being Your best possible You in this very moment right here right now on this fantastic and magical planet. It's also a perfect book to pick up at random and flip through any one of its many pages. It's full of all that is good and true in the world, and I think it would be the perfect kind of not-too-expensive holiday gift for nearly everyone. I'm buying 5 more! :)3 of 3 people found the following review helpful. This is a delicious, quirky and often profound book ...By Jeffrey CarreiraThis is a delicious, quirky and often

profound book. I have been a fan of Dani's cartoons for some time and this is the first time she has gathered them in a book. I pick it up periodically, read some pages, and color as I feel moved to. 2 of 2 people found the following review helpful. Super unique coloring book with positive message! By Patty Triplett I bought this for my 8 and 11 year old daughters. They loved the drawings, the positive messages, how substantial it is, and all the white space for them to add their own creations. Totally unique. Highly recommend.

Adapted from her "I Am" calendar, Dani Katz's "Yes, I Am" is a transformational coloring book designed to prompt, prod, beckon, cajole, guide and support you in being your very best you. Ever. Chock-ful o' hand drawn, handwritten and thoroughly adorable awesomeness, "Yes, I Am" was designed with you – yes, you! – in mind. Intended to expand your mind, heart and worldview, this book serves as a non-denominational system of conscious evolution steeped in radical joy, unconditional love, and an unshakeable faith in the infinite power of an awakened humanity. While daily reading, coloring and sharing is encouraged (not to mention super fun), the transformational tome doubles as an oracle you can randomly flip-through when you're in the market for advice, inspiration or a giggle. Customize your "Yes, I Am" book as inspired - color inside the lines; color outside the lines; make your own lines; obliterate the lines and create something altogether new; or declare coloring stupid, rip out the pages, and fashion them into origami jellyfish. There is no wrong way to play with "Yes, I Am". "Yes, I Am" is suitable for kiddos, grown-ups, and everyone in between.

About the Author Dani Katz is an LA-based journalist best known for her big, bold voice, as well as her gonzo tendency to dive head first into evermore bizarre and terrifying experiences in service to her endless search for Truth. Katz has written for the LA Weekly, Los Angeles Times, Santa Fe Reporter, Whole Life Magazine, et al. Having started illustrating her articles over a decade ago, Katz's über-expressive line drawings have taken on a life of their own, and attracted a devoted fan following by way of her cult favorite I Am Calendar, as well as her Society 6 product line, and the daily doses of inspiration/encouragement she posts on her blog (and all the accompanying social media outlets). She lives in the Hollywood Hills, while kinda, sorta wishing they were Iceland.
