**David Levy : You've Got Funny Mail** before purchasing it in order to gage whether or not it would be worth my time, and all praised You've Got Funny Mail:

these emails, but often delete them as junk mail when we are busy, or, at best, after reading them, immediately delete the message from our computer's memory and our own memory, and lose that fleeting smile from our face. This book offers the opportunity to remember that "good one" that you wanted to share with a friend, savor the "dry one" that you had to read twice, and discover the "great one" that you will want to go back to again when you are feeling down. Divad just wants to make you laugh. 0 of 0 people found the following review helpful. Hilarious - Fantastic Gift By C. Feldman Here is a compilation of all of the best jokes to hit the email circuit over the past couple of years. Everytime you pick it up you will not be able to stop laughing! I bought copies as gifts for my dad and for myself. My brother got jealous and promptly stole mine! This book makes a great gift that will make everyone laugh over over.

About the Author Divad Yvel emigrated from the former Yugoslavia to the United States in 1994. With a degree in engineering, Divad found a career in mechanical engineering, and lives today with his wife and two children in a Detroit suburb. Always intrigued by technology, Divad was amazed by the development of the Internet and email. In the context of his childhood home, which had not a TV, telephone nor even a radio, he was all the more astounded by the extraordinary communicative power of email. He quickly realized that this power could be used for both good and evil purposes - a letter from a far-away family member or a harmful virus, a religious inspirational message or vicious hate-group propaganda. Divad took upon himself a mission to find and share the best that email had to offer. What better than an instant message that puts a smile on your face, lightens a rough day, or simply breaks up the monotony.
