Larry Kelley : You've screwed up. Now What?!: How to maintain your job and dignity after a major screw up.
before purchasing it in order to gage whether or not it would be worth my time, and all praised You've screwed up.
Now What?!: How to maintain your job and dignity after a major screw up.:

If you've ever been introduced to a new employee at the office as "the guy who got drunk at the Christmas party and danced with the boss's wife," then you can relate to office screw-ups. But there's good news. You don't have to relocate to Antarctica or dodge the water cooler at the office anymore. In *You've Screwed Up. Now What?!* advertising expert, Larry D. Kelley, shares his wisdom on the common mistakes that companies and their workers often go through - from signing a document you probably shouldn't have to running a balance sheet into the ground - and explains how anyone can make the best out of a screw up with his or her job and dignity intact. Kelley incorporates the Weasel of Wisdom to show you how to remedy your mistake and keep it from happening again. Witty and irreverent, *You've Screwed Up. Now What?!* is what you need to get you out of any bad mistake. But best of all, you'll begin to revel in your ability to screw up on your terms!
