further the inner workings of improv. I have taken several classes already and found this book to be extremely helpful. It's easy and fun to read. It also gets right to the point with no fluff. After reading this book, I knew more about what to listen and look for when in an improv scene. Dare I say I got funnier?? I recommend it for anyone learning improv. 0 of 0 people found the following review helpful. A Must-Have for Improvisors By Albert Connors Very straightforward and very funny.
