By Customer Shea S Young Frankenstein was released when I was 14 years old, and I have probably seen it 30 times over the years. Since I am so familiar with every scene and line, it was great fun to read about how it was all conceived. If you too are a big fan of the film, don't miss this opportunity to see into the mind of Mel Brooks and the rest of the cast and crew. It becomes obvious just how brilliant the combo of Mel Brooks and Gene Wilder really was, and how much Gene will be missed. Getting ready to watch it again. 23 of 25 people found the following review helpful. Young Frankenstein: The Power Point Presentation By Mr. Lucky This is an enjoyable scrapbook, almost akin to a souvenir program from a roadshow engagement, but it's not a bona fide volume on the making of the film, more a compendium of pulled quotes. If you've seen any of the supplemental documentaries on the making of this movie, especially both included on the Blu-ray edition, then you'll recognize a lot of the text within these pages. There's a rather clumsy introduction from Judd Apatow where he attests to not being as funny as Mel Brooks, subtly implying the mantle was passed to him, wherein he also tries to tie Marty Feldman's iconic portrayal of Aye-gore to the performances in the American version of The

Office. That's a connection I doubt anyone can see. The best parts of the book are the pictures, particularly some never before published behind-the-scenes shots. This is the sort of publication that ideally should be wrapped in plastic because anyone thumbing through it in a store can speed read the whole thing in under ten minutes. 6 of 6 people found the following review helpful. Fun read

A bit shorter than I'd have liked and it seemed padded by pictures and script segments. But overall it was fun to hear Brooks talk about the movie. Not a great deal of new info for fans who have already dug deep or listened to the commentary tracks on the YF DVDs. But his love for the film (and for the recently-departed Gene Wilder) shows through. Most of the principal cast has passed on by now, so it seems fitting that Mel would wax nostalgic about the movie at this time.

[Foreword written and read by Judd Apatow][Read by Mel Brooks, Michael Gruskoff, Ellen Archer, and Robert Petkoff]
